Subject Index to Volume 23

Accessory olfactory bulb

vomerolnasal organ, pheromones 491

ACHemS

formative years, need, role of National Science Foundation 721

Acid

astringency, phenolic compounds, alum 371

Acids

pH, anion, astringency, sourness, phenolics 343

Amino acid

taste response, chorda tympani, mouse 699

Antisense DNA

brain, *in vivo*, behavioral studies 249

Antisense oligonucleotides

cell delivery, technology 243

Astringency

acid, phenolic compounds, alum 371

Beidler's mixture equation

sweetness-flavour interactions, maltitol, aspartame, sucrose, orange aroma 59

Brain

antisense DNA, *in vivo*, behavioral studies 249

Chemical senses

olfaction, odor, sensory, Crustacea 269

Chemoreceptor

cells, vomeronasal epithelium, olfactory epithelium, replacement, nerve transection, hamster 171
concentration detectors, flux detectors 99

Chemosensory event-related potentials (CSERPs)

odor processing, attention, stimulus significance 423

Chorda tympani

anesthesia, taste, plasticity, NST, neurophysiology 661
nerve, taste, sodium, amiloride, mouse strains 411
taste, amiloride, NaCl, Fischer-344 151
taste response, amino acid, mouse 699

CO₂

taste, taste quality, carbonation, human taste perception 397

Crypt cell

olfactory organ, electron microscopy, zebrafish (*Danio rerio*) 39

G protein

gustducin, vallate taste buds, cell renewal, rat 735

GABA

gustatory zone, rostral nucleus of the solitary tract (rNST), neurons, rat 683

Gas chromatography

olfactory receptors, sexual pheromone, capillary column, thermal modulation, biodetector, insect, *Spodoptera littoralis* 647

Gurmarin

taste, β -cyclodextrin, inhibition of sweet responses, sweet receptor, mouse 303

Gustation

taste, nucleus of the solitary tract, gamma-aminobutyric acid, synaptic transmission, bicuculline methiodide 159

Gustatory epithelia

sodium transport, hamster, rat 283

Gustatory zone

GABA, rostral nucleus of the solitary tract (rNST), neurons, rat 683

Gustducin

G protein, vallate taste buds, cell renewal, rat 735

Memory

odor memory, odor-evoked autobiographical memory, context dependent memory 359

Monoclonal antibody

taste cells, apical membrane, taste disc, frog 709

NaCl

taste, amiloride, gustatory quality descriptions 501

Neural network

electrophysiological studies, action potential classifiers, template matching/principle components, artificial neural network 531

Neurons

GABA, gustatory zone, rostral nucleus of the solitary tract (rNST), rat 683

Odor

concentrations, single-unit activity, information processing 1
discrimination, identification, profiling, semantic memory, retrieval, feeling of knowing 309
discrimination, olfactory, nerve transection, recovery 513
inner nose, imagery 443
memory, odor-evoked autobiographical memory, context dependent memory 359
oestrous odors, social isolation, staggerer mutation, male preference 119
olfaction, chemical senses, sensory, Crustacea 269
olfactory, nasal irritation, trigeminal, olfactometry, anosmic, variation, human
olfactory memory, olfactory stimuli 433
perception, Japanese-German cross-cultural study 31
processing, chemosensory event-related potentials (CSERPs), attention, stimulus significance 423

Odorant-binding protein

amino acid sequence, post-translational modifications, photoaffinity labelling 689

Olfaction

- binding protein, sexual dimorphism, physiochemical characterization, *Apis mellifera* L. 83
- breast milk, ethanol, vanilla, mother-infant interaction, suckling, development, play behavior 11
- gramicidin, perforated patch-clamp, voltage-dependent currents, membrane potential 49
- laterality, discrimination, thresholds 541
- odor, chemical senses, sensory, Crustacea 269
- odor annoyance, odor intensity, magnitude estimation, psychophysics 113
- psychophysics, brain lateralization 453
- stimulus-response function, models 181
- stochastic properties, renewal process, frequency coding, temporal resolution, *Glossina* 521

Olfactory

- context, intensity, memory, stimulus-level 131
- microvilli, cilia, Na⁺-channel, Na⁺,K⁺-ATPase, ouabain, cytochemistry, freeze-substitution 137
- odor, nasal irritation, trigeminal, olfactometry, anosmic, variation, human
- odor discrimination, nerve transection, recovery 513
- vomeranosal, Fos, mating behavior, amygdala 257

Olfactory cue

- visual cue, orientation mechanism, sockeye salmon 207

Olfactory epithelium

- chemoreceptor cells, vomeronasal epithelium, replacement, nerve transection, hamster 171
- resting potential, gap-junctions, glia, potassium, ionic, slice, frog 363

Olfactory memory

- odor, olfactory stimuli 433

Olfactory organ

- crypt cell, electron microscopy, zebrafish (*Danio rerio*) 39

Olfactory receptors

- gas chromatography, sexual pheromone, capillary column, thermal modulation, biodeceptor, insect, *Spodoptera littoralis* 647

Olfactory sensitivity

- antennal olfactory cells, daily rhythm, tsetse fly 351

Olfactory system

- vomeranosal epithelium, main olfactory bulb (MOB), accessory olfactory bulb (AOB), heterogeneity 477

Oral cavity

- taste buds, patch clamp recording, sodium salt transduction, hamster 495

Phenylthiocarbamide (PTC)

- 6-*n*-propylthiouracil (PROP), taste, discrimination tests 403

Pheromone

- major urinary proteins, sex, age, mice 67
- pheromone-receptor interaction, pheromone deactivation, moth (*Antheraea polyphemus*) 385
- receptor genes, vomeronasal organ, molecular biology, sensory transduction 467
- vomeranosal organ, accessory olfactory bulb 491

Physical exercise

- taste, preference 417

6-*n*-Propylthiouracil (PROP)

- phenylthiocarbamide (PTC), taste, discrimination tests 403

Rostral nucleus of the solitary tract (rNST)

- GABA, gustatory zone, neurons, rat 683

Sexual pheromone

- gas chromatography, olfactory receptors, capillary column, thermal modulation, biodeceptor, insect, *Spodoptera littoralis* 647

Sodium transport

- gustatory epithelia, hamster, rat 283

Sweeteners

- synergy 447

Sweetness-flavour interactions

- Beidler's mixture equation, maltitol, aspartame, sucrose, orange aroma 59

Taste

- bitter, quantitative trait loci, recombinant inbred strains, BXH/Ty, *Mus musculus* 327
- chorda tympani, amiloride, NaCl, Fischer-344 151
- chorda tympani anesthesia, plasticity, NST, neurophysiology 661
- chorda tympani nerve, sodium, amiloride, mouse strains 411
- CO₂, taste quality, carbonation, human taste perception 397
- gurmarin, β -cyclodextrin, inhibition of sweet responses, sweet receptor, mouse 303
- gustation, nucleus of the solitary tract, gamma-aminobutyric acid, synaptic transmission, bicuculline methiodide 159
- intensities, sweet taste, memory 295
- memory research, *ad libitum* mixing 379
- NaCl, amiloride, gustatory quality descriptions 501
- phenylthiocarbamide (PTC), 6-*n*-propylthiouracil (PROP), discrimination tests 403
- physical exercise, preference 417
- receptors, psychophysics, structure/taste activity relationships 197
- taste aversion, taste mixtures, polycose, sucrose, hamsters 675
- trigeminal, irritation, capsaicin, pungent, bitter, nicotine 125
- triterpene glycosides, strogins, sweetness, *Staurogyne merguensis* 93
- weak taste stimuli, sucrose, citric acid, detection thresholds 19

Taste buds

- gemmal cell type, cell proliferation, autoradiography, chick 333
- oral cavity, patch clamp recording, sodium salt transduction, hamster 495
- vallate taste buds, G protein, gustducin, cell renewal, rat 735

Taste cells

- monoclonal antibody, apical membrane, taste disc, frog 709

Taste response

- amino acid, chorda tympani, mouse 699

Trigeminal chemosensitivity

- day-night differences, nasal mucosa, CO₂, human 755

Triterpene glycosides

- taste, strogins, sweetness, *Staurogyne merguensis* 93

Visual cue

- olfactory cue, orientation mechanism, sockeye salmon 207

Vomeranosal

- olfactory, Fos, mating behavior, amygdala 257

Vomeranosal epithelium

chemoreceptor cells, olfactory epithelium, replacement, nerve

transection, hamster 171

olfactory system, main olfactory bulb (MOB), accessory

olfactory bulb (AOB), heterogeneity 477

Vomeronasal organ

accessory olfactory bulb, pheromones 491

anatomical description by Jacobson, domesticated animals 743

function, background 463

pheromone receptor genes, molecular biology, sensory
transduction 467

prey extracts, electro-olfactogram, neurogenesis, nerve
section, snake 653

receptor cells, urine-derived compounds, electrophysical
responses, biochemical responses 483

Vomeronasal system

development, plasticity, early experience, rodents 717
